

Testimony for Chris Bunn

Dear whom it may concern:

Chris Bunn joined us from June 2025 to September 2025 under the Pacific Pilotage Authority (PPA) waiver scheme, acting as our local pilot in British Columbia.

Chris was imperative to the safe navigation of the vessel throughout his time with us. He provided calm, practical, and well-considered navigational advice, always mindful of the operational constraints of our luxury operation and the expectations of our guests.

Outside of his statutory role, Chris was extremely engaging with both guests and crew. He generously shared his knowledge of British Columbia's culture, history, and local environment, which greatly enhanced the overall guest experience onboard.

Chris holds a Master 500 NC and meets the Pacific Pilotage Authority waiver baseline requirements, including the required voyage experience across the pilotage zones. His experience working with Federal Fisheries on inshore patrols gives him exceptional knowledge of the British Columbia coastline.

Chris always conducted himself professionally and was a pleasure to work with. I highly recommend him for any future pilotage or maritime advisory role.

Kind regards,

Paul Harman
